SUMMARY

Full-Stack Developer with professional experience developing and maintaining web applications, as well as building independent full-stack projects from concept to implementation. Experienced in backend development, frontend development, database design, API integration, authentication, and third-party services. Strong focus on writing clean, maintainable code and building practical, user-focused applications.

SKILLS

Laravel, PHP, Blade, Next.js, Javascript, HTML/CSS, Tailwind CSS, MySQL, Redis, Docker, Git

PROJECTS

1. **Analysecv.com** - AI Powered CV Analysis Platform

Laravel, MySQL, JavaScript, Gemini API, Paddle.

Full-stack web application that analyses CVs using AI, provides users with structured feedback and recommendations, and includes integrated payment functionality for premium features.

- GitHub: <https://github.com/L-Maiss/analysecv>

2. **E-Commerce Platform** - under development

Laravel, Next.js, MySQL, Redis, Docker, ERP system.

Full-stack e-commerce platform built with a service-oriented architecture, featuring a customer-facing Next.js landing page, a separate Next.js admin dashboard, and a Laravel API service with ERP integration.

- GitHub: <https://github.com/orgs/luka-portfolio/repositories>

EXPERIENCE

1. Full-Stack Developer - Wifisher

2024 - 2026

- Developed and maintained web applications using Laravel, MySQL, Redis, JavaScript, and Bootstrap within a microservices architecture and Docker-based environment.
- Implemented middleware, authentication, and caching to improve application security and performance.
- Applied clean-code and maintainability practices through refactoring and adherence to coding standards.
- Collaborated with team members to plan and implement new features.
- Used Git for version control and ClickUp for task management.

2. Web Developer - Nazaraliev Medical Center

2024

- Independently developed and delivered a website for Nazaraliev Medical Center.
- Developed the application using PHP and object-oriented programming.
- Worked directly with the client to understand requirements and deliver the finished website.
